

TJ Hire Certified LPG Gas Trolley Instructions

All TJ Hire LPG gas appliances come supplied with an LPG gas trolley

1. Place your 45KG LPG cylinder on the trolley into the red brackets. Secure with the black straps provided.
2. Using the hose supplied connect into your gas cylinder. Remember for LPG cylinders it is a reverse thread.

3. Unwrap the 3 metre hose with the quick connect fitting.
4. Make sure no kinks are in the hose.
5. Please note if using inside a marquee please ensure that your gas trolley and cylinder is outside of the marquee for ventilation. (Not suitable for indoor use)
6. Push the quick connect brass fitting at the end of the hose into the brass fitting on your gas appliance you should hear a little "click".

7. Open your gas cylinder. Please note when lighting pilots on your gas appliances for the first time be patient as it may take 5 – 10 minutes depending on weather and time to purge to air through the gas line.
8. To disconnect - turn gas cylinder off, pull backwards on the spring loaded brass fitting to disconnect the hose from the appliance.
9. Disconnect hose from your gas cylinder and remove cylinder from the remove from the red brackets.
