Lockleys Hotel Drive Through

In the year of 2024, we had our temporary kitchens at the Lockleys Hotel, as part of their extensive renovations.

The other major renovation was the extension of their Sip n Save drive through. Jason came to us looking for a solution to keep his drive through operational.

We built a 'Dry Bar' same as our 'Beer Box' without the taps. This enabled the Lockleys to serve their RTD's, beers, wine and champagne. They set up a marquee and drive through system, to keep their clientele happy during renovations.

Next to the dry bar, we had our "Preparation Box'. Which he used for his spirits and wine.

The last container was our 'Combination Cool Room & Freezer Room'. He used it as big cool room for his cold storage.
