

# TJ Evaporative Air-Conditioning

Late 2022 we took over the Seeley International evaporative airconditioning hire division, 50 units in total. We have built custom frames for storage, transport and putting our TJ touch on how we do things.

We can put these into you marquees, warehouses, out door enclosed area, promenade area or even a community hall.

If your evaporative airconditioner breaks down (in a commercial space) we need available:

- ✓ Access to an opening window (no more then 3 metres high), to fit our duct work through. Side entry grills or we can run our ductsox through your building.
- ✓ A supply water point
- ✓ A 10 amp power point for each airconditioner

# 1800 TJ HIRE

Specialists in mobile coolroom & freezer room hire

## EVAPORATIVE AIR-CONDITIONING AVAILABLE FOR HIRE
